

Get the app. Stop the spread.

To help stop coronavirus spreading, it is vital that we all download the free **Protect Scotland** app. The app works by:

- Quickly alerting you if you have been in close contact with an app user who tests positive
- Anonymously alerting people who have been in close contact with you, if you test positive
- Utilising Bluetooth technology, so it does not know your location or identity
- Using minimal data

By downloading the app **today**, we can all help protect ourselves, our families and Scotland against coronavirus.

To find out more about the app visit protect.scot
